General Assembly Democrats 2021 End of Session Report

Revitalizing Our Economy, Delivering Urgent Relief, Forging a More Prosperous Future for Coloradans

In the midst of a global pandemic and a challenging year, Democrats came together to deliver urgent relief to struggling Coloradans and build our state back stronger. The legislature was able to deliver on promises that were years in the making – passing transformational legislation that will pave the way for a Colorado where everyone can thrive. By putting people over politics and working across the aisle to accomplish great things, 94% of our passed legislation received bipartisan support.

In order to recover faster and build back stronger, lawmakers developed a bipartisan state stimulus package to foster the Colorado Comeback, make monumental investments to strengthen small businesses, support Colorado families, invest in rural Colorado, and develop our workforce.

In addition to passing state stimulus policies, state leaders worked collaboratively to allocate nearly \$4 billion in federal funds from the American Rescue Plan Act. The resulting legislation immediately deployed hundreds of millions of dollars to make housing more affordable, provide emergency behavioral health services and help workers complete degree or skills-training programs. The roadmap also dedicated funds to protect critical state services in future years and set aside funding for future transformational investments in housing, behavioral health, education and workforce development, and economic stimulus and recovery.

Lawmakers prioritized addressing longstanding issues that have burdened Colorado for decades, such as the inaccessibility and unaffordability of health care. We created the Colorado Option, a new health insurance choice for consumers that is set to save Coloradans 15 percent on their insurance premiums. Lawmakers also passed the Prescription Drug Affordability Review Board, which will reduce the cost of prescription drugs and help protect Coloradans from having to forgo life-saving medications because they're too expensive.

After booming population growth yet insufficient funding, Colorado's infrastructure is in desperate need of repair and modernization. That's why we passed a historic transportation plan to support a dynamic economy, improve air quality, create jobs, and position Colorado to compete with other states.

We also focused on the preeminent issue of our time: climate change. We passed a slate of bills to promote clean energy, reduce greenhouse gas emissions, and help mitigate the impacts of climate-related disasters such as wildfires and drought.

Sadly, the legislature was also confronted with the all-too-familiar issue of gun violence during the legislative session. After 10 people lost their lives in the Boulder King Soopers shooting, Democratic lawmakers passed six critical bills this year to curb the gun violence epidemic.

In 2021 General Assembly Democrats rose to the occasion and championed policies that will not only support people in the aftermath of the pandemic but pave a hopeful path forward by creating a more equitable, sustainable, and prosperous Colorado for all.

Budget and Stimulus Packages That Reflect Colorado's Values

[SB21-205: 2021-22 State Budget](#), by Senator Moreno and Representative McCluskie

This year our state budget prioritized restoring cuts that the General Assembly was forced to make last year due to the pandemic; building an equitable economic recovery; and investing in Colorado's future by boosting funding for core services like K-12, higher education, health care and human services, and economic stimulus and relief efforts across the state.

Colorado Comeback State Stimulus Package

In the wake of the pandemic, the legislature came together to deliver a unique Colorado solution designed to stimulate our economy, focus on sectors hardest hit by the pandemic, and rebuild a more just and resilient Colorado by investing \$800 million in state dollars into five key areas:

- Strengthening small businesses
- Revitalizing our infrastructure
- Supporting Colorado families
- Investing in rural Colorado
- Developing our workforce

Building Back Stronger Federal Stimulus Plan

The federal American Rescue Plan Act presented the legislature with a unique opportunity to both address immediate needs and make thoughtful, targeted investments in Colorado's future. Following a statewide listening tour, the legislature created a structure to split the funds between short- and long-term investments in key needs:

- Stimulus and relief efforts;
- Creating transformational change in the areas of housing, behavioral health, and workforce development and skills-training programs; and
- Budget integrity measures to protect critical services like K-12, higher education, health care, and human services in future years.

Supporting Small Businesses and Economic Development
